LEGAL
IN EUROPE

Australia's leading 4x4 accessory company, Ironman 4x4 has gained formal approval for its range of suspension kits by German TÜV Nord and the German Federal Motor Transport Authority (KBA).

Ironman 4x4 is the first company to successfully receive this approval for the most popular 4x4 pickups sold worldwide including Volkswagen Amarok.

TUV: 8115612716 ABE: 91700

The approval took more 18 months to achieve the requirements of the most stringent testing and standards.

For German customers this means that their 4x4's can legally install the KBA/ABE certified suspension kit upgrade without requiring annual re-certification.

For other European 4x4 owners the TÜV Nord approval also allows for legal installation and conformity with all national and international road laws.

Ironman 4x4 suspension kits are sold in more than 160 countries and are the choice of original equipment manufactures across the globe.
